

# Price List

Your wedding day is a once in a lifetime experience. There isn't a second chance. How you and your family relive your wedding day will depend on your photographs. Photography by Design strives to capture the detail, beauty, and character of your wedding day and offers simple, all-inclusive, flat-rate pricing to meet your needs. It's knowing that Photography by Design is creating memories that will be in your family for generations.

**It's about you—and you're worth it.**

Our pricing is based on what the average client has historically purchased. We would rather be upfront with our pricing than try to quote you a cheaper price in order to get the job, and then up-sell to an unrealistic point when you plan your album.

*All pricing include grooms house, brides house, locations as discussed and start of reception. (Grooms house must be within 1/4 hour of brides house otherwise grooms coverage fee applies)*
